Subject: FAR Case 2001-014

To Whom It May Concern::

I am writing to express my opposition to the Bush administration's proposal to repeal the Clinton administration's rules on federal contractor responsibility. The rules require contracting officers to look at a company's record of complying with the law in deciding whether the company is a "responsible contractor" eligible to receive a federal contract.

As a taxpayer, I want my tax dollars to go to responsible companies that comply with the law, not to corporate lawbreakers. Companies that routinely violate laws designed to protect the environment, consumers, workers and other important rights shouldn't be rewarded with valuable federal contracts. That's unfair to companies that do comply with the law and allows chronic violators to profit from their lawbreaking.

I urge the Federal Acquisition Regulatory Council not to repeal the contractor responsibility rules and to let the rules go into effect without further delay.

I bill The United States Government \$2,080,000,000.00 because I was lied to, laughed at intennated and discrimated against the prime contractor and Department of Energy as a sub-contractor I have lost everything I own due to contractors for the government cover up and lieing My case number with Congressman Norwood Office is 13033. I upset with how companies lie and cover up. Tell me the owner that we haven't been exposed and the governor of S.C. just ask for Billion dollars to clean up SRS. tritium in water, chemicals in mud and sediment, 48.4 tons of unranium in a 13 acre area. No protection at all for 5.5 years used. i want something done my family has been destroyed due to DOE,WSRC,USFS.

Sincerely,
William Hooker
